#### Treatment

- **Prophylaxis**
  - Curettage
  - Exploration
  - Fluoride Treatment
  - Hand Scaling
  - Polishing
  - Root Planing
  - Ultrasonic/Sonic
  - Varnish (Sealing)

- **Periodontal Surgery**
  - Biopsy (Bone/Tissue)
  - Curettage (Open)
  - Flap (Double Reverse/Open/Reposition/Slinging)
  - GINGIVECTOMY/GINGIPLASTY
  - Guided Tissue Regeneration
  - Implant
  - Laser Surgery
  - Splinting (Periodontal)
  - Sutures (Abs/Non Abs)

- **Oral Surgery**
  - Epulis Removal
  - Fistula Repair
  - Fracture Repair (Bone)
  - Frenectomy/Frenotomy
  - Hand Scaling
  - Impression/Stone Model
  - Laser Treatment
  - Maxillary/Maxilla
  - Odontoplasty
  - Oral Surgery
  - Other

- **Restorations**
  - Crown (Cap)
  - Crown Lengthening
  - Crown Preparation
  - Fillings
  - Post

- **Exodontics**
  - Alveolectomy
  - Crown Reduction
  - Extraction
  - Extraction (Deciduous)
  - Extraction (Root Remnant)
  - Flap Gingival
  - Hemisection/Section
  - Odontoplasty
  - Root Amputation
  - Sutures (Abs/Non)
  - Other

- **Orthodontics**
  - Acrylic (Devices)
  - Brackets
  - Elastic Device
  - Expansion Device
  - Implant
  - Orthodontic Device
  - Splinting
  - Splinting (Periodontal)

- **Endodontics**
  - Apicoectomy
  - Pulp Capping (Direct)
  - Pulpotomy (Vital)
  - Root Canal
  - Calcium Hydroxide
  - Garreta Percha (points)
  - GP (Thermostable)

- **Other**
  - Antibiotic Injection
  - Synthetic Bone - Consil
  - Discuss Homecare Program
  - General Anesthesia
  - Local Anesthetic Pain Block
  - Occlusal Assessment
  - Oral Radiography
  - Subgingival Antibiotic – Doxirobe
  - Post-Operative Pain Inj
  - Pre-Anesthetic Check
  - Pre-Anesthetic Pain Med

---

**Routine Home Dental Care**

The efficient daily use of a soft-bristled toothbrush, with appropriate animal toothpaste, is still the only proven method for long-term control of plaque and gum disease.

Chewing exercise is beneficial as it stimulates natural tooth cleaning and protection mechanisms. In general, hard chewing objects are not a good idea as many animals damage their teeth and gums on them, and swallowed pieces can cause serious problems. Avoid feeding soft, sticky foods and never give items containing sugar or oil/fat as treats.

**Special Instructions**

- No food tonight
- No chew bones or toys for _____ days
- Feed light meal tonight
- Soften food for _____ days
- Oral rinse
- Pain medication dispensed to go home
- Antibiotic medication dispensed to go home
- Medical progress examination in 7 days and again in _____ months

**Dr. Brett Beckman, FAVD, DAVDC & Dr. Nossaman, FAVD**
